AMERICAN ASSOCIATION of PHYSICISTS IN MEDICINE

To:

From:

I am writing to request approval to attend the 2027 American Association of Physicists in Medicine (AAPM) Spring Clinical Meeting, taking place April 10–13, 2027, at the Hyatt Regency Denver in Denver, Colorado.

Educational Courses
The 2026 AAPM Spring Clinical Meeting brings together medical physicists to learn, refresh and discuss practical information designed to help in the clinical integration of emerging technologies shaping the treatments of tomorrow. The program provides a forum for the exchange of ideas in support of practice quality improvement and to address regulatory as well as accreditation related issues.

Technical Exhibits
The Spring Clinical Meeting will feature approximately 40 exhibitors, allowing me to interact with equipment and service providers, evaluate emerging technology, and attend live education sessions with product experts.

Networking
The 2027 Spring Clinical Meeting expects approximately 400 medical physics professionals. I will be able to develop and maintain relationships with medical physicists and commercial product experts from around the country and the world and interact with experts in the latest research.

Continuing Education
By participating in sessions, I will be eligible to earn continuing education credits as part of my participation. AAPM will apply to the Commission on Accreditation of Medical Physics Education Programs, Inc. (CAMPEP) for MPCEC hours.

I greatly appreciate your consideration of my request and look forward to your reply.

Sincerely,

Robert McKoy
Interim Executive Director
American Association of Physicists in Medicine (AAPM)
